

# SANOFI SITE – CAIRO

## Class D

*100 points, adaptable Class D*

sanofi~synthelabo

### Site

Located in the heart of Cairo (Egypt), the SANOFI offices occupy two floors.

### Engineering department

The engineering study was prepared jointly by the IT manager for the SANOFI sites, Mr. Vignal, and our Pilot installer, Perfect Net.

### Pilot installer

**Perfect Net** – 9, Moshen Roshdi St. – 8<sup>th</sup> Area, Beside Alsson Institute – Nasser City – Cairo, Egypt.

### Cabling topology:

- Workstation : 2 RJ 45 cat.5E UTP ref. 7700SU
- Cable : ABCLAN UTP
- Service room :
  - Capillary distribution realized using RJ45 on adaptable 16 and 32 port strips (6680 and 6681) associated to 6685 cable organizers,
  - Telephone freeway cabling on cat.3 48 strips, 48 ports 6695.

### Special features

This is the first Infra+ project for this Pilot which provided an installation ensuring more than satisfactory performance with a "worst case" ACR of 23.5 dB at 100MHz
